# To Our Customer

## Throughout The Facility's Life Cycle

At Black & McDonald, we believe our ability to stabilize maintenance costs, maintain comfort conditions, extend equipment life, and protect the capital investments of our customers are the criteria upon which we should be judged. Further, we share the common concern about energy use and will work with you to operate your premises at maximum efficiency. That's why we make a tremendous effort to reduce or eliminate equipment downtime, and respond quickly to your needs.
